# NT25 DEEP BANDING SYSTEM

**NEW**

**After more than two years of product development, our new NT25 Dual-Shoot Deep-Banding system for C-Shank and Edge-On tynes for the 2026 seeding season. The key features are:**

**LIMITED  
QUANTITIES  
FOR 2026!**

- DRY FERTILISER DELIVERY through a hollow 16mm knife point
- HEIGHT ADJUSTABLE point with two different settings  
*Two point length options may become available in the future depending on feedback/demand*
- 15-30mm SEPARATION between seed and dry fertiliser
- ANGLED 45mm 'BOW' CLOSER to promote self cleaning and aid blockage prevention
- LIQUID PROVISION for liquid fertiliser below the seed and/or wetting agent with the seed
- INTERNAL POINT HOLDER
- PIN OR BOLT option for point fastening

## PRICES:

Complete Kit (as pictured) **\$300** +GST

## Replacement Parts

PT2560 16mm Point **\$125** +GST

**As well as on farm testing, formal trial work was conducted on canola in Esperance, WA during the 2025 season with positive results.**

All prices exclude any freight costs that may apply

## NT19 ADJUSTA-POINT AND HOLDER

**The NT19 Adjusta-Point is our latest and recommended Point & Holder system for C-Shank tyne. The key features are:**

- **HEIGHT ADJUSTABLE** with three depth settings to allow for lowering of point as it wears or for deeper cultivation below the seed
- **SECURE BOLTING ARRANGEMENT** by using a u-bolt for the point holder to help prevent sideways movement if the tyne bolt becomes loose or worn. There is only one tyne bolt which is easily accessible.
- **COMPATIBLE** with current range of Agmaster boot assemblies such as Multi-Boot, Rigid Boots and FlexiBoots as pictured on pages 4 - 11.
- **ADAPTABLE** for use with our popular NT11 Rigid Seeding Boots by using a customised bent u-bolt.
- **SECURE TRASHGUARD** design which is fixed directly to top of point holder. Design doesn't affect access to point retaining pin. These are included as standard in all NT19 seeding kits.
- **LIQUID** point options available
- **LO-THRO** or **STRAIGHT** profiles to choose from
- **EASY ACCESS** pin & R-clip **IMPROVED IN 2025**
- **SHORTER STYLES** available on request **NEW**

**For complete seeding kits, see pages 4 - 11**

**For spare parts and accessories such as trashguards and liquid kits, see pages 12 - 13**

### HARDFACING IMPROVEMENT

We have increased the area and thickness of hardface weld on the sides of our NT19 Adjusta-Points for the 2024 season and onwards. This should help retain knife material behind the tungsten. Additionally, we are doing some R&D on alternative options during the 2026 season.

***This brochure is only a selection of our most common & latest products. For our full range of products, visit our website to view our Parts Book or Products sections***

**[www.agmaster.com.au](http://www.agmaster.com.au)**

**For all Seeding Kit part numbers and their prices, use our Seeding Kit Builder at [www.agmaster.com.au](http://www.agmaster.com.au)**  
*All prices exclude any freight costs that may apply*

## NT19 ADJUSTA-POINT OPTIONS

All NT19 Adjusta-Points are 14mm wide, and fit into the same point holder. There are some other variations depending on the profile option:

### LO-THRO PROFILE

- 325mm overall length
- Vertical section toward top of knife reduces soil throw by disrupting soil flow up point

### STRAIGHT PROFILE

- 315mm overall length
- More traditional point angle
- Extra material in knife can provide additional strength
- Recommended for granite

#### PICTURED:

- NT19 Rigid Boot Seeding Kit w
- PT5650 point, BT2550 seed boot & additional liquid kit (p12)

For all Seeding Kit part numbers and their prices, use our Seeding Kit Builder at [www.agmaster.com.au](http://www.agmaster.com.au)

All prices exclude any freight costs that may apply

Limited quantities of shorter points for less cultivation are now available on request. Discuss with Agmaster or your Dealer for further information.

**NEW**

# NT19 RIGID BOOT SEEDING KIT

## Progression of our NT11 Series

- Choose from Adjusta-Point range (p4-5)
- Height-adjustable seeding boot
- Multiple seed boot options to suit both single-shoot & dual-shoot programs (p14)
- Choice of 40mm or 50mm closer on standard single-shoot boot (pictured)
- Improved bolt accessibility on bracket at back of tyne
- Weld-on closer plates available for self-repair
- Wetter with seed provision on cast single-shoot seed boots (BT2540/BT2550)

## PRICE:

Standard Kit as pictured **\$300** +GST

See page 14 for other boot option pictures and kit price difference.

## PICTURED:

- Standard Lo-Thro Adjusta-Point PT5640
- 50mm Single-Shoot Boot BT2550
- Trashguard

## SEEDING BOOT OPTIONS

- BT2540 Single-Shoot w 40mm Closer
- BT2550 Single-Shoot w 50mm Closer (as pictured)
- BT2390 Dual Shoot w 65mm closer (P14)

All prices exclude any freight costs that may apply

# NT19 FLEXIBOOT SEEDING KIT

## Progression of our NT11 Series

- Choose from Adjusta-Point range (p4-5)
- Height-adjustable seeding boot
- The seeding boot is a stiff but flexible hose with 40mm closer plate which self-cleans in heavy soils
- Suits both single-shoot & dual-shoot programs
- Allows banding of fertiliser in knife point slot when dual shooting
- 50mm closer available for wider spread in light soils. 40mm is the general recommendation.
- Weld-on closer plates available for self repair

## PRICE:

Standard Kit as pictured **\$385** +GST

## SEEDING BOOT OPTIONS

- FB2840 w 40mm closer  
(as pictured & recommended)
- FB2850 w 50mm closer on request

## PICTURED:

- Standard Lo-Thro Adjusta-Point PT5640
- 40mm Flexi-Boot FB2840
- Trashguard

# NT19 MULTIBOOT SEEDING KIT - SINGLE ROW

- Choose from Adjusta-Point range (p4-5)
- 45mm replaceable closer
- Modular system. Easily interchange between paired-row and single-row
- Suits both single-shoot & dual-shoot programs; optional dry fertiliser boot available if required
- Built-in capability for directing liquid behind the point
- Provision for wetter with the seed

For more detailed information about the Multi-Boot system see pages 10 - 11

## PRICE:

Kit as shown **\$300** +GST

Wetter with seed tube not included in kit, order separately

More kit options and prices can be found on page 10

## SEEDING BOOT OPTIONS (P10)

- CL5240 45mm Single Closer (as pictured)

# NT19 MULTI BOOT C-SHANK

The Multi-Boot seeding system is a modular kit for double-bolt c-shank tynes which provides the flexibility to choose between multiple paired-row and single-row closing tool options. The key features of this system are:

- Multiple closing tool options with flexibility to easily alternate between paired and single-row depending on conditions and crop type. See below or previous page for details
- Compatible with both NT19 Adjusta-Point and NT11 Point & Holder systems
- Optional dry fertiliser boot is available for dual shoot systems
- There is provision for liquid down the knife point slot and/or wetter with the seed
- A secure bolting arrangement on the closing tool and dry fertiliser boot
- Bracket options to suit 50mm Flat C-Shank tynes and 30mm Edge-On tynes

## BUILD YOUR KIT:

1. Select Kit Base
2. Select Point
3. Select Closing Tool
4. Add optional extras

*Kit price includes all parts & fasteners required for assembly. Alternatively, see page 11 for common configurations and their prices*

**1. Kit Base**  
**\$130** +GST Standard  
**\$168** +GST Liquid

## 4. Optional Extras

**LF5520**  
 Stainless Tube for Seed Wetter  
*One required per seed row*  
**\$6** +GST

**FB5310**  
 Dual-Shoot Dry Fertiliser Boot  
**\$55** +GST

All prices exclude any freight costs that may apply

## NT19 & NT11 ACCESSORIES

### Trashguards & Sweep Adaptors

#### TRASHGUARDS

These saddle the point holder and secure to the holder or tyne to provide better trashflow in heavy residue. There are two styles for NT11 and NT19 Adjusta-Point which suit both flat and edge-on tynes. **Below prices include required fasteners**

NT19 Trashguard  
for Adjusta-Point  
**\$30 +GST**

NT11  
Trashguard  
**\$41 +GST**

#### SWEEP ADAPTORS

These secure into the holder in place of the point for quick change from No-Till cultivation to conventional cultivation. Replicates bottom of tyne to accommodate bolt-on wedge or bolt-on wide point. 3 different hole configurations are available. Available for NT11 holders and NT19 to order on request. Contact Agmaster to discuss

**\$32 +GST**

### Liquid Kits

These kits piggy back Agmaster NT19 & NT11 rigid boot kits. They will direct liquid fertiliser from an existing liquid distribution system to the base of the tynes and into the back of a liquid fertiliser point (see pages 5, 6 & 13). The liquid kit includes a shaped stainless tube that acts as a protective casing for 3 - 6mm OD flexible fertiliser delivery hose.

Kit does not include liquid point or flexible tube. A longer bolt may also be required to bolt clamp plate to tyne. Kits are available for two liquid hose sizes.

**Single Liquid Kit: \$39 +GST**

**Double Liquid Kit: \$60 +GST**

## OTHER NO-TILL SEEDING KITS AND PARTS

### NT08/NT11/NT19 Series Rigid Boots Options *(excludes Flexiboos)*

#### **BT2540/BT2550**

Single Shoot Boot with 40mm or 50mm Closer Plate

**\$70** +GST

#### **Standard NT19 Kit**

Standard Adjusta-Point with choice of BT2540 or BT2550 boots

**\$300** +GST

*Picture and details P6*

#### **Standard NT08 Kit**

12mm bolt-on point with choice of BT2540 or BT2550 boots

**\$210** +GST

*Picture and details below*

#### **BT2370**

Single Shoot Split Boot with 65mm Closer Plate

**\$140** +GST

*For this boot option in a kit add \$70 +GST to the standard single shoot NT19 or NT08 kit price*

#### **BT2390**

Double Shoot Split Boot with 65mm Closer Plate

**\$185** +GST

*For this boot option in a kit add \$115 +GST to the standard single shoot NT19 or NT08 kit price*

*All the above seeding boots have weld-on closer plates available for self-repair*

### NT08 Series Bolt-On Kits

For single bolt cultivator and scarifier tynes in the 90 - 150kg breakout range. Standard single system included a 12mm point and depth adjustable 40mm boot assembly. See above for other boot options and kit price difference.

#### **NT08 Seeding Kits suit the following tynes:**

Shearer 580 & 620, Forward/Chamberlain 270, 700 & 800 series, Alfarm, John Deere/International Scari & Shearer Scari

#### **PRICES:**

Standard Single Shoot Kit as shown **\$210**+GST  
Replacement Points **\$85** +GST

*For all Seeding Kit part numbers and their prices, use our Seeding Kit Builder at [www.agmaster.com.au](http://www.agmaster.com.au)*

*All prices exclude any freight costs that may apply*

# NT22 IN-LINE DUAL-SHOOT SYSTEM

**NEW**

This system is a progression of our original In-Line series and has been tested in WA during the 2025 seeding season. It currently will fit the below machines:

- **Morris Quantum**
- **Morris Contour 2 & 3**
- **Horsch Sprinter NT**

*Can be adapted to other machine makes on request.  
Contact Agmaster to discuss.*

## PRICES:

### Complete Kits *(as pictured)*

Morris Quantum, C2 & C3

**\$530** +GST

Horsch Sprinter NT

**\$560** +GST

### Replacement Parts

PT5080 12mm Point

**\$120** +GST

- 12mm height-adjustable point
- Single-row seeding boot with 40mm replaceable closing plate *(50mm available on request)*
- Dry fertiliser boot behind point for banding in knife point slot
- Vented fertiliser tube to help prevent blockages
- Independent height-adjustment on both the fertiliser and seed boots
- Provision for liquid fertiliser below seed and/or wetter with seed
- M12 cuphead bolts for point and boot fastening

**SCAN HERE**

for more information  
and working videos

**LIMITED  
QUANTITIES  
FOR 2026!**

*NT22 Kit fitted to Horsch Sprinter in WA*

*All prices exclude any freight costs that may apply*

## NT20 ADJUSTA-POINT

**Our NT20 Adjusta-Point is the height-adjustable point used in our NT20 Multi-Boot Module seeding system. Currently, this system is available to suit the following machines:**

- |                               |        |                                 |        |
|-------------------------------|--------|---------------------------------|--------|
| • Morris Quantum              | P18-19 | • Horsch Sprinter NT <b>NEW</b> | P22-23 |
| • Morris Contour 2 & 3        | P18-19 | • Bourgault Paralink            | P24-25 |
| • Morris Contour 1 <b>NEW</b> | P20    |                                 |        |

Key features of the NT20 Adjusta-Point are:

- HEIGHT ADJUSTABLE with three different settings to allow for lowering of point as it wears or for more below the seed cultivation if desired.
- LIQUID point options available
- COMPATIBLE with out Multi-Boot Module seeding boot system which has Paired-Row Seeker Boots or Single-Row Closer options to choose from
- LO-THRO or STRAIGHT knife point profiles
- WIDTH OPTIONS 12mm or 14mm points that both fit in the same adaptor
- EASY ACCESS pin & R-clip which has no load when working **IMPROVED IN 2025**
- HARDFACING improvement for 2024 onwards with increased area and thickness

**For complete seeding kits, see pages 18-25**

### LO-THRO PROFILE

- 14mm knife
- 255mm overall length
- Vertical section toward top of knife reduces soil throw by disrupting soil flow up point

### STRAIGHT PROFILE

- 12mm knife
- 265mm overall length
- More traditional point angle
- Extra material in knife can provide additional strength

**NEW**

**For all Seeding Kit part numbers and their prices, use our Seeding Kit Builder at [www.agmaster.com.au](http://www.agmaster.com.au)**  
All prices exclude any freight costs that may apply

# NT20M MULTIBOOT FOR MORRIS

*Please discuss suitability of paired-row systems for your soil type with Agmaster or your dealer*

This system is a modular seeding kit to suit various Morris parallelogram modules which provides the flexibility to choose or alternate between multiple paired-row and single-row seed boot options. The key features of this system are:

- Multiple closing tool options with flexibility to easily alternate between paired and single-row depending on conditions and application. See below for details.
- Secure bolting arrangement on the closing tool and dry fertiliser boot.
- Height-adjustable point is secured with an easy-access pin and there is no load on the pin when working.
- Optional dry fertiliser boot is available for dual shoot systems
- Liquid point option available and all boot options come liquid ready.

## BUILD YOUR KIT:

1. Select Kit Base
2. Select Point
3. Select Closing Tool
4. Add optional extras

**Kit price includes all parts & fasteners required for assembly. Alternatively, see pages 19-20 for common configurations and their prices**

### 1. Kit Base

# NT20H MULTIBOOT FOR HORSCH SPRINTER NT

Our NT20 Multi-Boot system is now available to suit the Horsch Sprinter NT (High Model). This is a modular seeding kit which provides the flexibility to choose or alternate between multiple paired-row and single-row seed boot options. The key features of this system are:

- Multiple closing tool options with flexibility to easily alternate between paired and single-row depending on conditions and application. See below for details.
- Secure bolting arrangement on the closing tool and dry fertiliser boot.
- Height-adjustable point is secured with an easy-access pin and there is no load on the pin when working.
- Optional dry fertiliser boot is available for dual shoot systems
- Liquid point option available and all boot options come liquid ready.

## BUILD YOUR KIT:

1. Select Kit Base
2. Select Point
3. Select Closing Tool
4. Add optional extras

**Kit price includes all parts & fasteners required for assembly. Alternatively, see page 23 for common configurations and their prices**

# NT21B to suit Bourgault 4420DKD

**NEW!**

## KNIFE POINTS

**Our NT21B point for the new Bourgault 4420DKD were run in WA in the 2025 season**

- 16mm HEIGHT-ADJUSTABLE point with three settings to allow for lowering of point as it wears or more below-seed cultivation
- Standard OR Liquid options
- LO-THRO profile (pictured) is standard but non-lo-thro are available to order

*This point is currently fully fabricated, they may be cast in the near future based on demand which will make them more cost-effective*

### PRICES:

PT6740 Lo-Thro Standard (pictured)	<b>\$125</b> +GST
PT6750 Lo-Thro Liquid	<b>\$145</b> +GST
PT6760 Straight Standard	<b>\$125</b> +GST
PT6770 Straight Liquid	<b>\$145</b> +GST

Standard PT6740 16mm point fitted

## SEED BOOTS

**Boot and bracket kits are available on request**

- Height-adjustable seeding boot with 50mm closer plate  
*Other closer plate sizes available on request*
- Provision for wetter with the seed

*These parts are currently fully fabricated, they may be cast in the near future based on demand which will make them more cost-effective*

### PRICES:

BRB5155 Boot & Bracket Kit (pictured)	<b>\$205</b> +GST
BT6550 Single Boot w 50mm Closer	<b>\$130</b> +GST

# NT21B Borgault PLDS Replacement Points

The following are non-genuine replacement 12mm parts available to suit the Bourgault PLDS seed and fertiliser shanks.

*Pre-order recommended*

**PT6710**  
Fertiliser Knife for PLDS  
**\$155** +GST

**PT6720**  
Seed Knife for PLDS  
**\$105** +GST

## NT21D Adjusta-Point & Holder to suit DBS

The NT21D Adjusta-Point is our first Point & Holder system to suit DBS/Groundhog shanks. The key features are:

- HEIGHT ADJUSTABLE with five depth settings (120 - 200mm) to allow for lowering of point as it wears or for deeper cultivation below the seed
- Unique POINT HOLDER design with built-in TRASHGUARD
- EASY ACCESS M12 PIN & R-clip **IMPROVED IN 2025**
- Very positive feedback on WEAR compared to other makes
- EASY TO REMOVE/ADJUST point that can be tapped forward out of holder

### PRICES:

#### Point & Holder Kit (as pictured)

PTH7671 **\$145** +GST

#### Replacement Parts

PT7760 Point **\$115** +GST

HL7710 Holder **\$30** +GST

## NT21E Point to suit Equalizer

**NEW!**

The NT21E Point is our first knife point to suit Equalizer tynes. The key features are:

- 16mm long-life point featuring 60mm of 10mm thick tungsten at the tip
- Hard-faced sides to maintain knife thickness
- Semi-open sleeve around bolts to assist with point removal
- Very positive feedback on wear compared to other makes (see below)

*This point is currently fully fabricated, they may be cast in the near future based on demand which will make them more cost-effective*

Wear comparison on same Ha (Agmaster PT6810 behind)

### PRICES:

#### Point (as pictured )

PT6810 **\$150** +GST

## PRESSWHEELS

**70mm "V" Presswheel Module.**  
See page 29 for all tyre profile options

- Individually mounted for independent pressure
- Self tracking
- Semi pneumatic tyres for soil shedding
- Down pressure adjustable
- Can be lifted and locked when not required
- Light weight but robust - module weight 11kg

See page 32 for Presswheel mounting options

**Agmaster Presswheels** offer flexibility to suit all seeding conditions. The presswheels mount to a false bar behind the last rank of seeding tynes.

Presswheel module as shown:

**\$480** +GST

with 50mm Flat, 70mm V or 95mm V tyre profiles

**\$505** +GST

100mm W tyre profiles

**\$700** +GST

Emu Tracker tyre (*See P26 for more info*)

Optional inner spring for extra pressure

**\$15** +GST

Optional offset wheel spacer for clay shedding

**\$20** +GST

## PRESSWHEEL TYRE OPTIONS

### Tyre Profile Options

#### 50mm Flat Tyre

Crumbles sides of narrow slot

**40-50mm Closers**

**PWF50 \$480 +GST**

#### 70mm 'V' Tyre

General purpose in mixed soil types

**40-85mm Closers or Seekers**

**PWV70 \$480 +GST**

#### 95mm 'V' Tyre

Wide press on light sand soils

**50-95mm Closers or Seekers**

**PWV95 \$480 +GST**

#### 100mm 'W' Tyre

For use with paired-row Seeker Boots

**95mm Seekers on flat fields**

**PWW100 \$505 +GST**

#### 130 mm 'Emu Tracker' Tyre

Most effective in moist soils where furrow smearing/crusting is a problem.

**50-95mm Closers or Seekers**

**PWE130 \$700 +GST**

INFO  
P30

**Suitable tyre profile** will depend on seeding boot style, soil conditions and desired finish.

Seek local experience or contact an Agmaster Sales Consultant for more information. All prices shown are for complete module (*pictured on page 28&30*) with selected tyre profile.

For Presswheel Module & Fixed Extension calculator, use our Presswheel Builder at [www.agmaster.com.au](http://www.agmaster.com.au)

All prices exclude any freight costs that may apply

# EMU TRACKER PRESSWHEELS

By increasing demand, the Agmaster Emu Tracker wheel is now available as an individually mounted Presswheel Module. These have been run in WA & NSW over the past few seasons with positive customer feedback including comments of:

- Reduction in chemical damage on edge of furrow
- Fewer weed escapes at edge of rows
- Less smearing in wet conditions
- Improved seed coverage
- Reduced mud build up on tyre in sticky soils

## PRICES:

Presswheel module as pictured with 130mm wide Emu Tracker tyre

**PWE130      \$700 +GST**

As with our usual presswheel range, these units mount to a false bar behind the last rank of seeding tyres. Additional features include:

- Individually mounted for independent pressure
- Greasable hubs
- Self tracking
- Down-pressure adjustable
- Extra inner-spring option for additional pressure
- Can be lifted and locked when not required
- Robust aluminium rims - module weight 18kg

*See page 32 for Presswheel mounting options*

## EMU TRACKER WHEELS

Agmaster Emu Tracker wheels have a unique design which addresses the issue of presswheel furrow smearing on precision seeding modules such as the following:

**(other makes may also be adaptable):**

- Morris Quantum
- Bourgault Paralink
- Morris Contour1,2&3
- Horsch Sprinter

The Emu Tracker replaces the existing wheel on the precision seeding module. The flexible feet flick some of the loose soil back into the seeding row while giving some pressing effect. They are most effective in moist soil conditions.

**PRICE:** Wheel as pictured **\$350** +GST

**Original Module Wheel Finish**

**Emu Tracker Wheel Finish**

## PRESSWHEEL MOUNTING OPTIONS

### FIXED EXTENSION ARM

Used when presswheels are permanent with provision for an adaptor plate to be welded to end of main arm to add harrows in combination. If no harrows are used, minimum of 2 arms are required per section. A 3rd arm is required for any section with more than 18x Standard Presswheels or 12x Emu Tracker Presswheels. A typical single fold machine will require 6 or 7 arms. Mount bar secures to end of these arms. Weight 31kg

**\$650** +GST

### FIXED EXTENSION ARM WITH DOUBLE DROPPER

Used in conjunction with above arms of short sections of folding machines i.e. 7ft or less with up to 10x Standard Presswheels or 7x Emu Tracker Presswheels. Typically used on short outer wings of double fold machines. Mount bar secures to end of arm. Weight 38kg

**\$830** +GST

Presswheel & framework layout . All dimensions in mm

## NO-TILL HARROWS

**Agmaster No-Till Harrows** have been developed to compliment no-till seeding systems. Their non-aggressive rotary action is designed to brush loose soil from the interrow back into the seed row. They have excellent trash flow capabilities and can be used independently or in combination with presswheels.

- *Easy to set up and use*
- *Working angle and pressure adjustable*
- *Lifts and folds with machine*
- *Excellent stubble handling*

**STAR HARROWS** are suitable for covering behind narrow points to provide an even cover. Long life tips are replaceable. 4ft and 5ft gangs will provide the best finish. 6ft gangs are available if other sizes not suitable.

### PRICES:

4ft gang with telecarrier arm **\$2825** +GST  
 5ft gang with telecarrier arm **\$3025** +GST  
 6ft gang with telecarrier arm **\$3225** +GST  
 Replacement Single Star Tips **\$5.50**EA +GST  
 Replacement Star Tips x100 **\$500** +GST

**COIL HARROWS** are suitable for covering behind a greater variety of points. Slightly more aggressive, they are more effective in sticky soil conditions.

### PRICES:

4ft gang with telecarrier arm **\$2725** +GST  
 5ft gang with telecarrier arm **\$2925** +GST
